

THE 606 SOCIETY

the circle of eleven

15th Dec. 1980.

No. One.

---

Co-ordination: C.R.(Steve) Whiting.  
Distribution & Selection: Chris. P. Harding

---

TO ALL 606 MEMBERS:

It was decided to abandon the 50I concept in favour of 606. Lakh is now defunct; all future newsletters will be called the Circle after the number of people elected to membership. All people will be deemed to hold continuous membership without payment. However anything you wish to add in the way of funds will be gladly accepted. 50I (IQ<sup>5</sup> or I:100,000) called for an IQ rating of I68.32, in practice I69, or about 8 per Million. Since no member has a score of less than I70, roughly 6 per Million, it was thought best to assert the new standard now!.

NEW MEMBERS:

Barry R. Weiss (IQ I73) and John M. McAdon (IQ I72).

CONGRATULATIONS:

Bruce Whiting for his listing in the I98I Guinness Book of World Records as the brightest ISPE member with an IQ of I90.

Laura van Arragon for her nomination for the rank of Philosopher for ISPE. Currently only three ISPE members hold such a rank designation from over 200 brilliantly gifted persons.

Steve Whiting for 40 new patients taken out for the year. More later!.

Chris. Harding for his coming listing in the 9th MMYB & Tests in Print III.

Buros wish to update his entry in the 8th MMYB and to do a review of his current work.

OTHER NEWS:

Guinness also expressed a wish to list the most difficult test of the adult intellect. Some contenders have appeared.

It is hoped 606 will be mentioned in Prof. Elawie's book on the History of the high IQ Societies. We are too small and informal currently to rate mention in Guinness.

PAST AND CURRENT MEMBERS:

Ferris E. Alger, Old York Road, New Hope, PA. I8938., USA.

Chris. P. Harding, P.O.Box 27I, North Rockhampton, Queensland, AUSTRALIA, 470I
